Overview

The Inter-American Development Bank (IADB) provides concessional and non-concessional loans, loan guarantees, grants and technical assistance to middle and lower-income countries in Latin America.

Achievements and progress

- The IADB ranks in the 'very good' category for the first time. This also represents strong year on year progress as each year the Bank has improved its performance category.
- The IADB publishes a full organisation file in the IATI Standard along with sub-national activity locations and activity budgets.
- A disaggregated three-year forward-looking budget is published to the IATI Registry.

Challenges and room for improvement

- The organisation budget is available only for the next two years.
- There is room for improvement in the quality and breadth of activity-level information, especially budgets by quarter, sub-national locations, MoUs, tenders and results.
- Its data portal does not allow data on development projects to be downloaded and is not published under an open license.

Recommendations

- The IADB should provide a three years forward-looking budget and should improve the breadth and quality of low scoring activity-level indicators.
- The IADB should make data on its open aid portal available for free bulk export and under an open licence.
- It should develop a strategy for internal and external use of its data particularly at country level. It should share good practice with other development finance institutions (DFIs) to help them publish in the IATI Standard or improve their existing publications.

Have they met the Busan commitment on aid transparency?

☒ yes ☐ partly ☐ no

Donor Profile

2016 Index:
VERY GOOD 85.6%

2014 Index:
GOOD 73.9%

2013 Index:
FAIR 57.1%

First published to IATI:
MARCH 2014

Frequency of publication	Quarterly
Indicators published to IATI	35/36
Activity budgets	IATI
Total budget	2 years – IATI
Disaggregated budgets	3 years – IATI

This table highlights the organisation's performance in providing timely, comprehensive and forward-looking aid data in a comparable and open format.

- Frequency of publication is measured by the IATI Dashboard.
- Comprehensiveness is measured against the indicators used in the Index at the organisation and activity levels and their publication in the open and comparable IATI Standard.
- Forward-looking budgets for the organisation and its development activities are measured by indicators 9, 10 and 33.
